PROGRESS REPORT

What went well last week?

Managed to find a solution for the problem with merging in the main branch

What is the focus of today?

Merging updates and conducting meetings for the project.

What blockers exist?

School activities and lack of practice with github.

What went well?

Backend managed to send out consistent updates on their part. Managed to conduct two meetings this week.

What didn't go well?

No proper practice in using git checkout <commit-hash>

What should we start doing?

Study more about GitHub, Holding more meetings and taking notes of concerns and problems

What should we stop doing?

N/A

What should we continue doing?

Continue with the progress we made and study more about what we lack.
