PROGRESS REPORT

What went well last week?

Website was now connected and working well. Got good points in mid terms

What is the focus of today?

Improving the website and making changes to get closer to completion

What blockers exist?

Communication problems with the team as well as classes and other activities

What went well?

My groupmates managed to push in updates for the website. Managed to write down tasks. Wrote down more specific sub tasks to complete the given task.

What didn't go well?

Conflicts in merging the pull requests—some files went missing after merging.
Unnecessary files in other branches

What should we start doing?

Study more about GitHub, Holding more meetings and taking notes of concerns and problems

What should we stop doing?

Delaying updates

What should we continue doing?

Continue with the progress we made and studying more about what we lack.
